Career Objective

Passionate and detail-oriented aspiring web developer with a keen interest in creating responsive and interactive web applications. Seeking an opportunity to apply my technical knowledge, enhance problem-solving abilities, and contribute to innovative projects in a growth-driven organization.

Education

Bachelor of Technology - Information Technology (Pursuing)
Mahendra engineering college for women (Autonomous) (2023 – 2027 batch)
CGPA: 8.07 / 10
Higher Secondary (12th Grade) , Government Model School , Year of Completion: 2023
Percentage: 70%

Technical Skills

Programming Languages: HTML, CSS, JavaScript, Python (Basic), Java (Basic)
Tools & Technologies : VS Code , GitHub ,Canva , Figma ,OpenCV (basic)
Core Skills: Web Development, Computer Vision (Basics), Problem Solving ,UI/UX fundamentals

Projects

AI-Based Crowd Detection & Prediction

- Engineered a real-time crowd monitor system use OpenCV for accurate density tracking
- Implemented advanced human detection with dynamic heatmap visualization.
- Designed predictive logic to analyze crowd behavior and movement patterns.

Smart ATS Resume Analyser

- Developed a Smart web application to evaluate resumes against job requirements
- Implemented intelligent keyword analysis for ATS-based screening.
- Generated actionable insights to improve resume effectiveness and selection chances

ATM Secure Authentication using OTP

- Developed a robust OTP-based authentication system for secure user access.
- Integrated mobile verification to prevent unauthorized login attempts.
- Enhanced system security over conventional PIN-based authentication methods.

Certifications

- Hackathon – participated in a TANCAM, applying problem-solving and teamwork.
- Data Analyst Internship - Gained skills in data analysis and visualization using Power BI.
- AI-Based Game Development Workshop-Learned basics of creating games using AI tools.
- Symposium Participation- Attended and participated in a technical symposium.
- Web Development -Learned for building dynamic web applications.

Achievements

- Developed and implemented real-world projects in AI, Web Development.
- Actively participated in technical Hackathon, Symposiums, Paper presentation and Workshops to enhance knowledge.
